

OPEN-ES 2026

**Rigid Bronchoscopy:
Education, Innovation & Networking**

**16 June – Cremona, Italy
Congress & Cadaver Lab**

SPONSOR PROSPECTUS

PRELIMINARY PROGRAM HIGHLIGHTS

CONGRESS AND MASTERCLASS CADAVER LAB

High-level **plenary sessions** will address specific topics of interest for pulmonologists, oncologists, thoracic surgeons, anesthesiologists, radiotherapists, otolaryngologists.

Discussions will span topics such as tumor resection, airway stenting, management of benign strictures, and emerging technologies in endoluminal interventions.

Clinical Immersion Program at Trecchi Human Cremona

Join us for an exclusive program with experts in rigid bronchoscopy to enhance your skills through cutting-edge practical sessions with leading international specialists. Two shifts are planned to form small groups of participants, ensuring optimal guidance from the instructors.

Key Points

Meet internationally renowned Key Opinion Leaders

Learn how multidisciplinary groups collaborate to build successful teams

Exclusive access to 36 selected physicians

Creation of a realistic environment for rigid bronchoscopy procedures and more

Use of certified cadavers

The program includes 6 stations in the wet lab with cadavers

All sessions are conducted by expert physicians to maintain the highest standards of training and practical experience

Close collaboration with subject-matter experts

Coffee station and lunch included for all participants, fostering informal networking opportunities.
